

# NSEA WEEKLY RADIO NET – PREAMBLE:

Revised: September, 2023

[10 – 15 minutes before the net, notification is sent automatically with reminder and time net will begin (via text/e-mail) through Everbridge]

**GOOD EVENING.** At 7:00 PM Central (Daylight) [Standard] Time, this is the Weekly GMRS Radio Net of the North Shore Emergency Association. Net control this evening is (station/unit) \_\_\_\_\_, (call sign) \_\_\_\_\_. Any stations with **Emergency** or **Priority** traffic, immediately proceed at any time, Net Control standing by . . . **[BREAK]**

NSEA promotes public service through use of GMRS 2-way radio, including activities such as:

- SKYWARN weather spotting;
- CERT;
- Red Cross Disaster Action Team(s); and
- Other volunteer radio communications projects.

We have participated in such activities and others for over 50 years and encourage and invite all licensed GMRS operators to check into this net. **[BREAK]**

Individuals interested in obtaining permission to use NSEA Affiliated Repeaters or affiliating with NSEA are welcome to contact Net Control, any NSEA member, or visit our website, [www.NSEA.com](http://www.NSEA.com), and click on the “**Contact NSEA**” Link. **[BREAK]**

This Net is conducted every Sunday evening at 7:00 P.M, Primary purposes of this net are:

- To maintain weekly contact with members and affiliates of NSEA;
- To ensure radio equipment and system operation are maintained in case of Emergency;
- To maintain proficiency in net procedure;
- To announce items of information between meetings; and
- To serve as a method to unite associate groups, and other GMRS operators for: public service, emergency and disaster communications. **[BREAK]**

Net Control (will) [will not] be simulcasting this net on GMRS channels .675, .650, and .700 tonight. [We will take check ins on .675 first. After the role is called on .675, we will then take check-ins on .650 and .700. Traffic will be conducted on .675.]

We will now begin the rollcall. Please check in with only 1 ID. State:

- Your unit number, ID or call sign;
- Your radio type (mobile, portable, control);
- Your Location;
- Whether or not you have traffic; and
- Conclude with your F.C.C. call sign, if not already previously transmitted. **[BREAK]**

Rollcall will be made by affiliation level, not necessarily in numerical order. After the regular roll is called, we will take any first time or late check-ins, then traffic from checked in units, and lastly announce Standing Traffic. Beginning the roll...
